1 POLICY

SNAS assesses the competence of medicine (ML) laboratories according to the standard ISO 15189, provided they ask for.

A reviewed version was published in December 2022 of the standard ISO 15189: 2022, that, compared to the previous version ISO 15189: 2012 brought a more comprehensive revision. This standard applies to all types of medical laboratories.

In accordance with the resolution adopted at the General Assembly of ILAC: „Resolution GA 26.08“ from 15.11.2022 concerning the implementation of this new standard and assessment of the fulfilment of its requirements in the accredited laboratories SNAS provided allowed three-year transitory period for the implementation of this reviewed standard since it was issued. This way the termination of the transitory period is set to **31.12.2025**. Until this deadline all accredited ML shall meet the requirements of the standard ISO 15189: 2022. This will be checked up by SNAS whether during the planned or unplanned assessments and in the case they are met, it will award the accreditation with the reference to the fulfilment of the new version of this standard. In the case of the change by ILAC of the deadline for the transitory period, SNAS reserves the right to modify the deadlines set by this policy.

2 ASSESSMENT PROCEDURE AND DEADLINES

SNAS will accept the applications for accreditation, reaccreditation and extension according to the standard ISO/IEC 15189: 2012 **until 30.09.2023, at the latest**. (From 01.10.2023, SNAS only accepts applications for accreditation, reaccreditation and extension according to ISO 15189: 2022).

SNAS will accept the applications for accreditation, reaccreditation and extension from ML according to the standard ISO 15189:2022 **since 01.09.2023, at the earliest**.

At the latest by 31.12.2023 the accredited ML meeting the requirements of the standard ISO/IEC 15189: 2012 shall notify SNAS in writing whether they have realized in their management system the requirements of the standard ISO 15189: 2022 or within what date they will realize them; however, such deadline **must not be later than 31.12.2024**. During the assessment planned, SNAS will verify the meeting of the requirements of the standard. ML can apply for the assessment of meeting of the ISO 15189: 2022 requirements also out of the planned assessments, what SNAS will realize in the form of extraordinary assessment. All on-site assessments for the purpose of examination of the meeting of requirements will be carried out **by 31.08.2025, at the latest**.

ML accredited according to the standard ISO/IEC 15189:2012 shall demonstrate the meeting of all requirements of the standard ISO 15189:2022 **by 31.10.2025** and SNAS **by 31.12.2025**

Effective from: 28.02.2023	Edition: 1 Updating: 0	Document label: PL-58
--------------------------------------	---	---------------------------------

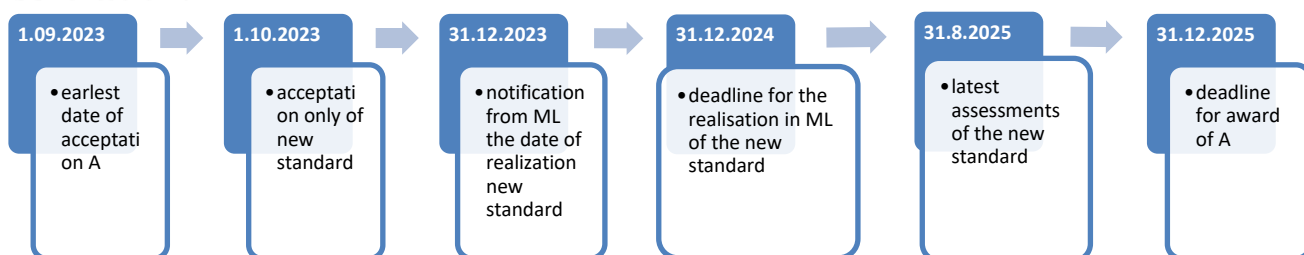

at the latest will award the ML the accreditation along with the decision and certificate of accreditation in which the reference will be made to the meeting of the requirements of the standard ISO 15189: 2022 (the accreditation validity period will remain unchanged).

A sufficiently long time period is given for the implementation of the requirements of the updated version of ISO 15189: 2022. As the standard ISO 15189: 2022 comprises the unchanged of re-formulated requisites of the version of standard published in 2012 too, the findings from the assessments will be classified according to the MSA–04. The nonconformities shall be resolved within the time, specified in the Act No. 505/2009 on the accreditation of conformity assessment bodies and on the amendment and supplementation of certain acts, i.e., within two months from their identification and recording, at the latest.

ANNEXES

Annex 1 Plan of the implementation of the Standard ISO 15189: 2022 in the practice of assessments carried out by SNAS in the laboratories.

ANNEX 1

**Plan of the implementation of the Standard ISO/IEC in the practice of assessments
carried out by SNAS in the laboratories.**

Ord. No	Phase	Deadline
1	Analysis of the requirements of the Standard ISO 15189: 2022	January, February 2023
2	Discussion within SNAS on the interpretation of the requirements of the standard ISO 15189: 2022	February 2023
3	Harmonised Standard	EK
4	Information in HAV about the implementation of the requirements of the standard ISO 15189: 2022	April 2023
5	EA training in relation to the requirements of the standard ISO 15189: 2022	June 2023 (deadline set by EA)
6	Setting up of the working group for the implementation in the practice of SNAS of ISO 15189: 2022 SNAS; Training for the employees of SNAS	July, August 2023
7	Updating of SNAS documentation including the check list for the assessment of the meeting of the requirements of ISO 15189: 2022	August – November 2023
8	Advanced training for VP and P of SNAS aimed at the interpretation of the requisites of ISO 15189: 2022 and of the updated SNAS documentation, informing of VP and P about the training outputs (in the case of necessity)	September – October 2023 – 2 trainings
9	Information in HAV about the provision of services according to the requisites of the standard ISO 15189: 2022	September, October 2023

Effective from: 28.02.2023	Edition: 1 Updating: 0	Document label: PL-58
--------------------------------------	---	---------------------------------

10	Informative seminar for the laboratories accredited by SNAS	September 2023
11	Beginning of acceptance of applications for the accreditation according to the standard ISO 15189: 2022	October 2023

Effective from: 28.02.2023	Edition: 1 Updating: 0	Document label: PL-58
