Amount of the fee shall be notified to the applicant / accredited body / certificate holder together with a Proposal of the composition of the Assessment Group through the Accreditation Information System.

The basic rates are further regulated depending on time necessary for complex assessment of meeting all accreditation requirements, particularly:

- Assessment of flexible scope in case of laboratories;
- Assessment of employees expressing opinions and interpretations;
- Supplementary assessment of requirements according to a different standard;

Effective from: 01.01.2024	Edition: 3 Updating: 1	Document label: RR-02

(Note: for purpose of the fee calculation: first workplace / place of business is one that has the highest number of determining data).

Particularities in individual fields of accreditation shall be taken into consideration through additional financial units specified below individual tables.

In other cases (e.g. extraordinary assessment, preliminary assessment, transfer of accreditation, supplementary assessment of requirements according to a different standard, evaluation of conformity with a new or updated regulation etc.) the hourly rate is used to calculate. The time capacity will be determined based on the actual time required for the assessment, including the preparation and completion of the assessment.
